From

K.Ramunni Menon Esq., I.C.S.,

Secretary to the Government of Madras.

To

The Hon'ble the Resident in Mysore

Dated Fort St.George, the 7th July, 1939.

Sir,

Irrigation - Coimbatore District - Nobbahulla Scheme - Construction of anicut and channel.

I am directed to invite attention to paragraph 2 of the Mysore Government's letter No.1087/2815 K39 dated 11th January, 1939 forwarded with your letter No.P.Dis.F.330/38/R.O.I, dated 25th January, 1939. It has since been decided that screw gearing shutters should be provided for the head sluice of the channel, and that the channel should be closed during the summer months. The joint gaugings proposed are not necessary as the entire flow will be passed down during the period. I am to request that the Mysore Government be informed accordingly.

I have the honour to be,

Sir,

Your most obedient servant,

K.Ramunni Menon,

Secretary to Government.

Copy to the Chief Engineer for Irrigation with reference to his letter No.1808/36 B43, dated 13th June, 1939.
Copy to the Board of Revenue (with enclosure).

Forwarded
(By Order)

KV.

Superintendent.

Copy of letter from the Chief Engineer for Irrigation, No.1808/36 B-45, dated the 13th June, 1939.

Irrigation -.Coimbatore - Kollegal Taluk - Hobbahalla Scheme - letter from the Resident in Mysore.

Ref:-G.O.No.915 Public Works Department, dated 15th April, 1939.

P1 (2)

In this office letter No.1808/36-B-38, dated 15-10-1938 it was suggested that a year's joint gaugings and daily water cards would suffice to give Mysore the necessary information in respect of the draw-off from the Hobbahalla. This suggestion was made when the new channel was proposed without regulating arrangements at head and when there was an idea of drawing small supplies in the summer months also. It has now been decided to provide screw gearing shutters for the head sluice and to close the channel completely in summer. Hence the joint gaugings proposed are not necessary as the entire flow will be passed down. Gauge readings of the head sluice will be sent to Mysore in summer if they require us to do so to show that no water is drawn into the channel when it is supposed to be closed.

I request that Mysore may please be informed accordingly.
